# Ese Inc.

A blog and brand identity

How does this work?

- I was given a task by my school teacher to develop a website to help him effectively manage a writing blog and also serve as a brand website for his Writing agency.

- This website serves two main purposes which include;

- 1. To promote his writing agency.

- 2. To serve as a blog for him to publish his creative works.

Home page for viewers.
Note: the home page is long the screenshot can only capture a section.

The administration panel.
Features:
CRUD for Blog posts, FAQs, Categories, Projects etc...
