PROJECTS

Step-Up resources

A university tutorial programme aimed towards helping students excel in their academic pursuit. We helped more than hundred (100) students in the department of Accounting, University of Uyo, through tutorials and academic resources.

Bit-By-Bit

A software that helps students study consistently during the ASUU industrial strike by delivering academic newsletters to their email.

Zuvote

A software that helps small scale pageantry organizers receive and compute payment for votes online, thereby taking away the need of bank to bank transfer and ensuring accountability.
